Overview

Specification

The Skytec Ninja Lite Safety Gloves are ultra-lightweight gloves ideal precise, intricate tasks. The gloves provide protection against a wide range of general handling hazards while being comfortable to wear with superb grip. Designed to provide as much flexibility and movement as possible, the Ninja Lite is an outstanding multi-purpose general handling glove. Well suited to a wide variety of industrial and manufacturing roles, for example product assembly, picking/packing and quality control.

The Ninja Lite gloves have an extra soft, seamless nylon/lycra liner with an elasticated wrist for a secure fit. The polyurethane (PU) coated palm provides excellent grip and handling in dry, wet or oily conditions. Tested and certified to EN 388 European standards.
