Overview

Specification

The Honeywell Miller 1011890 Titan 1 Point Safety Harness is a lightweight, economical harness. Reliable, easy to use and ideal for use as part of a fall protection system. Fully adjustable, one size fits all. Meets industry and construction compliance requirements and conforms with the EN 361:2002 European safety standards.

The harness is made from tough polyamide webbing with a 15KN breaking strength. The blue and black pattern allows the wearer to identify when the harness is correctly fitted. It also features galvanised steel quick release buckles and a stainless steel sliding dorsal D ring. Sub-pelvic straps keep the wearer comfortable and upright in use.
